Thinking about graduate school?

Infection, Inflammation and Immunity
“The Triple I Discipline”
Department of Microbiology & Immunology
Integrated Biomedical Sciences Graduate Program
University of Texas Health Science Center at San Antonio

• Learn more about the Infection, Inflammation and Immunity (Triple I) discipline in the Integrated Biomedical Sciences Ph.D. program at the University of Texas Health Science Center at San Antonio, one of the top biomedical research institutions in Texas.
• Obtaining a Ph.D. in our program can open doors to a wide variety of career opportunities in academia, industry and government.
• Our students gain valuable research skills and professional training by carrying out individualized research projects under the guidance of outstanding faculty, participating in local, national and international conferences, attending seminars by world-renowned leaders in our field, presenting their research findings at student seminars and participating in journal clubs to evaluate late-breaking high-impact discoveries in our field.
• Opportunities for coursework and research on a wide variety of topics are available:

  Molecular and Cellular Immunology
  Autoimmunity
  Cancer Immunology
  Immunomodulators, Vaccines and Diagnostics
  Viral, Bacterial and Fungal Pathogens
  Parasites

Application Deadline: January 15, 2015
